## Washington Avenue Utility Work

(LOVINGTON, NM) – The City of Lovington is working with Lea County to install new utilities for the Judicial Complex. Contractors will be installing a new sewer line on Washington Avenue between Eddy Street and Love Street as well as replacing an 8” water main on Love Street between Central and Washington Avenues. Site preparation will begin on Tuesday February 28, 2017 and will require the temporary closure of certain streets. Washington Avenue will be blocked off from Eddy Street to Love Street, however, businesses located within this area will remain accessible. It is anticipated that this project will be completed before the end of April 2017. We apologize in advance for any inconvenience. Should you have any questions, please contact Public Works Director Wyatt Duncan at 575-396-0498.
