The City of Lovington has issued the following addendum to the Request for Sealed Bids for Commercial Street Shoulder Repair Project No. SC-1115:

Section 2.0 Scope has been changed to reflect the following language:

2.0 SCOPE

The project location is described as South Commercial Street in Lovington, New Mexico. The GPS Coordinates indicating the start and end points of the project are listed below:

START: 32.93417°, -103.34216°

END: 32.93928°, -103.3422°

A map of the project location, with start and end points is provided in "EXHIBIT A". Work is limited to the shoulder on the west side only.

Work will include replacement and/or repair to approximately 1900' X 6' of roadway composed of 8" aggregate base and 4" asphalt material. All work will be constructed to meet NM DOT standards, to include testing. Upon completion, the contractor shall furnish the City as built drawings.
